SCHOOL POPULATION

The number of pupils in elementary and secondary education in this publication refers to all pupils and students enrolled (including pupils not eligible for funding) on 1 February 2014. For non-university tertiary education and university education, the data refer to all active enrolments in a degree contract in an institution for higher education on 30 June 2014 (enrolments on academic initial programmes). Courses in a language other than Dutch are also taken into account in the figures. A student may be enrolled on several programmes.

In adult education, the number of unique enrolments on a programme during the reference period is recorded. Students can enroll on more than one programme. The data concerning adult education refer to the period from 1 April 2013 to 31 March 2014. In part-time arts education, the number of pupils/students eligible for funding is reported. Individuals enrolled on more than one course of study are counted more than once.

In order to avoid double counting, pupils enrolled in special education due to long-term illness (type 5 special education) are not included in the figures for special education (132 pupils in special nursery education, 235 pupils in special primary education and 446 pupils in special secondary education on 1 February 2014).

Pupils and students enrolled in French language schools or in French language sections of Dutch language schools under the control of the Flemish authorities are not included in the figures either.

In the academic year 2013-2014 the higher education sector was thoroughly reorganised. With the exception of the academically oriented arts programmes and the academically oriented programmes offered by the Maritime Academy (Hogere Zeevaartschool), the university colleges have transferred their academically oriented bachelor and master programmes to the universities. Today the university colleges continue to offer their professionally oriented programmes and, in the context of a 'School of Arts', also academically oriented arts programmes. The Maritime Academy continues to organise both professionally and academically oriented programmes within the field of Nautical Sciences.

SCHOOLS

A school is an institution which provides education and which is managed by one principal.

In adult education, the term 'centre for adult education' is used; in adult basic education the term 'centre for adult basic education'. Institutions providing type 5 special education are not included in the figures (six schools in special nursery education, six schools in special primary education and four schools in special secondary education).

STAFF

Staff statistics only record staff members who are either paid directly by the Education and Training policy area or whose salaries are covered by the block grant awarded to higher education. As a consequence, staff members benefiting from the pre-pension scheme (TBS55+) are included in the figures. Maintenance, technical and service staff in subsidised educational networks are not included. Subsidised contractual staff are not taken into account either, as these staff members are not fully paid by the Education and Training policy area. Contractual staff in tenured posts is included in the figures.

Staff data for the 2013-2014 school year relate to January 2014, as known in June 2014. University staff data were provided by the Flemish Interuniversity Council (VLIR) and reflect the position on 1 February 2013. Data on the 2013-2014 academic year were not available at the time of publication (December 2014).

The staff data include school principals, vice-principals, teaching staff, administrative staff, manual staff in Community education, educational support staff, paramedic staff, staff of pupil guidance centres, inspectorate staff, educational advisors, staff in boarding schools and childcare workers in nursery education.

In this publication, most data in the tables and charts refer to staff members expressed as numbers of physical persons. Replacements of less than one year are taken into account. Physical persons are registered for the education level and education network where they carry out their main teaching assignment.

In a limited number of tables and charts the number of staff members is expressed in budgetary full-time equivalents. This is explicitly mentioned in the title. The number of budgetary full-time equivalents is the sum of all partial assignments of all staff members (i.e. including the replacements of less than one year). In university colleges, teaching assignments of visiting professors and mandate fees are not included in the full-time equivalents. For university education, staff figures include visiting professors and those in early retirement in terms of staff members, but not in the budgetary full-time equivalents.

As a result of the transfer (in 2013-2014) of the academically oriented higher education programmes from university colleges to universities, personnel involved in the transferred fields of study is no longer included in the staff statistics of the university colleges from 1 January 2014 onwards. They are now paid by the Catholic University of Leuven (Katholieke Universiteit Leuven) and by Ghent University (Universiteit Gent) themselves.

On 1 September 2009, the fourth stage vocational secondary education programme in nursing was converted into the associate degree programme. This kind of programme can be organised by secondary schools, centres for adult education and university colleges. The data for the associate degree in nursing are estimates. Since the school year 2009-2010, these data have no longer been reported in the tables on secondary education.

BUDGET

The budget is expressed in terms of available operating appropriations which are estimated annually and included in the (adjusted) expenditure budget of the Flemish authorities.

The operating appropriations comprise differentiated new commitment appropriations, variable appropriations and authorisations. The term 'available appropriations' means that these appropriations, in addition to the appropriations mentioned above, also comprise the share of overall provisions (mainly index and collective labour agreement) and reallocations of appropriations.

Certain cross-level expenses, of which the breakdown among the different levels is known, are allocated to the respective levels (including educational priority policy and investments). Without this adjustment, the picture of actual expenditure per level is distorted. For 2014, the actual data are not available yet, so either an estimate is used or the same breakdown as in 2013 is assumed.

The cost per pupil is calculated on the basis of the number of pupils enrolled.

These figures do not take account of the contributions by other (local) authorities, nor of the contributions by parents, schools and private companies.

OTHER SECTIONS

The information relating to infrastructure, NARIC and the examination board relate to the calendar year 2013.

INFRASTRUCTURE

The governing board of the educational institutions, boarding schools and pupil guidance centres in both subsidised public and subsidised private education can file an application for infrastructure subsidies to the Agency for Infrastructure in Education (AGION). Infrastructure work in primary schools is 70% subsidised and other educational levels, boarding schools and the pupil guidance centres can receive a grant of 60% of their building cost. The Agency for Infrastructure in Education (AGION) also provides finance for infrastructure work for the university colleges, but not for the universities.

The school buildings of the Flemish Community are financed by GO! Education of the Flemish Community.

NARIC

NARIC-Flanders is responsible for the recognition of foreign diplomas in higher education (academic recognition), higher vocational education, adult education and secondary education, as well as for professional recognition for teachers from the EEA. In addition, NARIC-Flanders issues certificates to holders of a Flemish diploma who want to go abroad to work or study.

EXAMINATION BOARD

The Elementary Education Examination Board issues the certificate of elementary education. The Secondary Education Examination Board issues the diploma of secondary education.

Since October 2012 the procedures of the examination board have changed. Exams are now permanently organised.

TERTIARY EDUCATION			
Associate degree nursing ⁽³⁾	20		
Higher vocational adult education and specific teacher training ⁽⁵⁾	51		
University colleges	17		
Universities	6		

(1) Autonomous nursery schools organise nursery education only. Autonomous primary schools organise primary education only.

(2) Excluding the so-called 'type 5-schools'. These schools organise special education of type 5 only (for pupils with long-term illness). In special elementary education, 6 schools organise nursery and primary education. In special secondary education there are 4 schools organising type 5-education. In order to avoid double counts, the pupils enrolled in special education type 5 are not included in the figures.

(3) 16 of the 952 schools organising full-time regular secondary education also organise the courses for the associate degree in nursing. Beside these schools, 4 schools only organise the courses for the associate degree in nursing. In the table above, the 16 schools referred to in this footnote are reported under both full-time regular secondary education and associate degree nursing.

(4) 42 of these 952 schools also organise part-time vocational secondary education. There are 5 schools that only organise part-time vocational secondary education. In the table above, the 42 schools referred to in this footnote are reported under both full-time secondary education and part-time vocational education.

(5) There are 109 centres for adult education. Some centres for adult education organise secondary adult education as well as higher vocational adult education. In the table, these centres are reported under both higher vocational adult education and secondary adult education.

Total	443,113	295,342	66.65%	133,851,193	-

(1) As known on 20/08/2014.

(2) School allowances are awarded to pupils in nursery, primary and secondary education; study allowances are awarded to students in higher education.

(3) The type of tertiary education is not known (because the student is studying abroad or in another Community of Belgium).

Remark:

The data above are not yet final as a number of applicants are still under consideration (71,280 applicants) for the school year 2013-2014. Due to this, the number of allowances granted may increase further.

1 Number of applications in 2013

	Number of applications
Higher education: PhD	10
Higher education: full equivalence	1,112

Legal precedent	132	-	-
Certificates	73	8	-
Total	2,002	219	615

(1) A file needs to be completed before a final decision can be taken. For this reason incomplete files are not taken into account.

(2) The person concerned receives the equivalence (s)he applied for or for which the file was initially examined.

(3) In case of a negative decision equivalence is not granted.

(4) An 'other' decision concerns an equivalence with another study certificate or level than the one initially applied for or examined. e.g. a person applies for equivalence with the degree of master but receives equivalence with the degree of bachelor.

3 Top 10 countries of origin of applicants in 2013

Pupils transported collectively ⁽²⁾	11,895	24,632	5,285	41,812
Pupils transported individually ⁽³⁾	2,305	6,166	1,612	10,083
Total	14,200	30,798	6,897	51,895

(1) For Community education only pupils within the zones are taken into account.

(2) A collectively transported pupil is a pupil using a special transport service with a minimum capacity of 7, financed or subsidised by the Flemish Community. Since 1 September 2001 this transport has been organised by the Flemish public bus company.

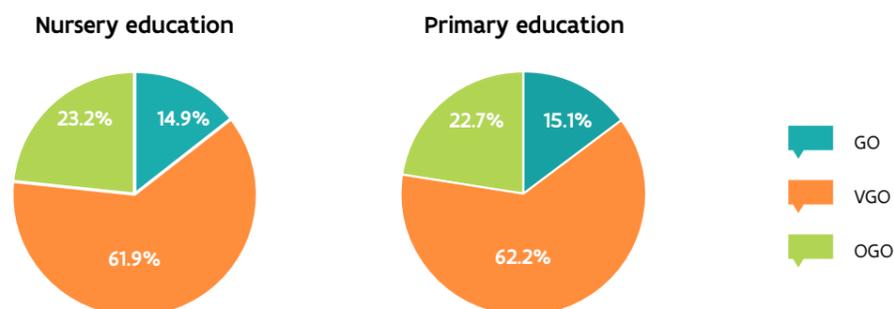

(3) An individually transported pupil is a pupil using public transport or a transport service with a capacity lower than 7, for which the Flemish Community contributes to the transport costs based on official public transport fares.

(1) In order to avoid double counting, pupils enrolled in special education due to long-term illness (type 5 special education) are not included in the figures. On 1 February 2014, there were 132 pupils in type 5 special nursery education and 235 pupils in type 5 special primary education. The average attendance between 1 February 2013 and 31 January 2014 in type 5 special nursery education is 111.78 pupils; for type 5 special primary education it is 215.15 pupils.

2 Distribution across the educational networks (nursery and primary education)

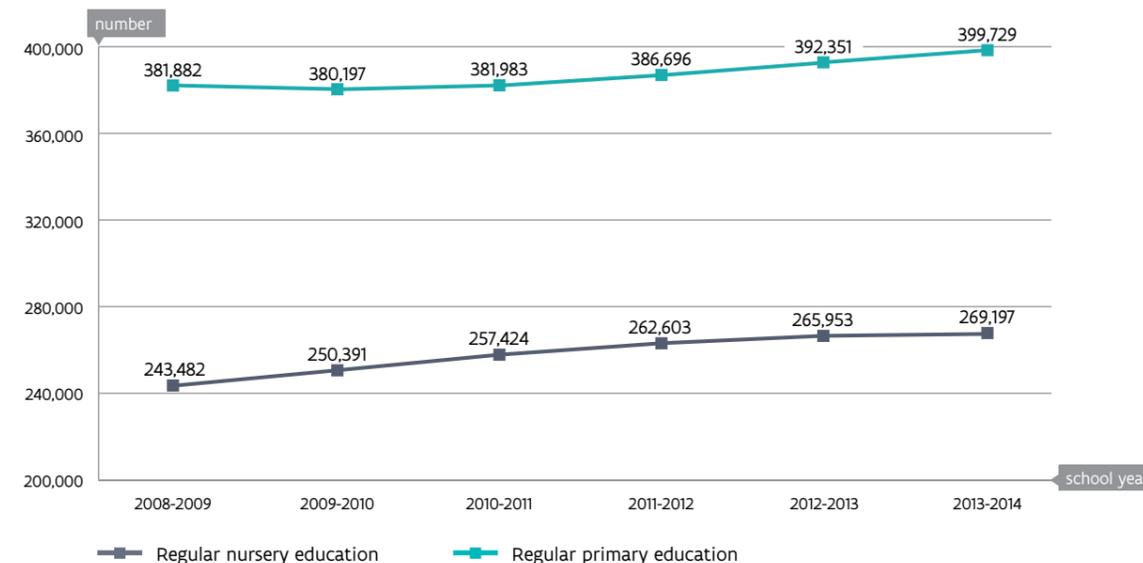

3 Distribution over the provinces ⁽¹⁾

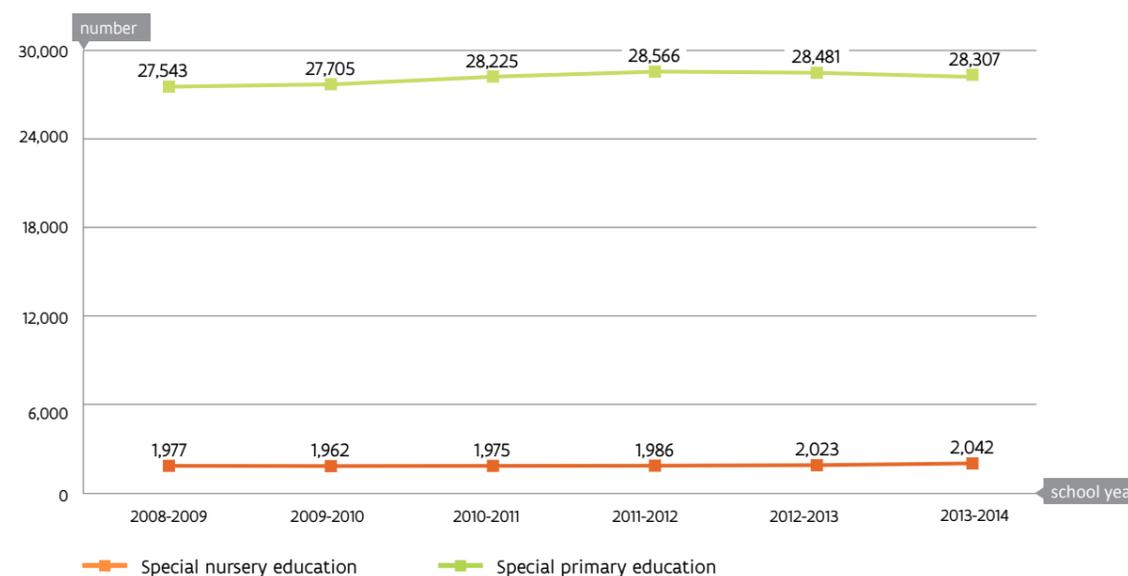

4 Changes in the school population in elementary education

Special elementary education	34	128	34	196
Total elementary education	408	1,605	564	2,577

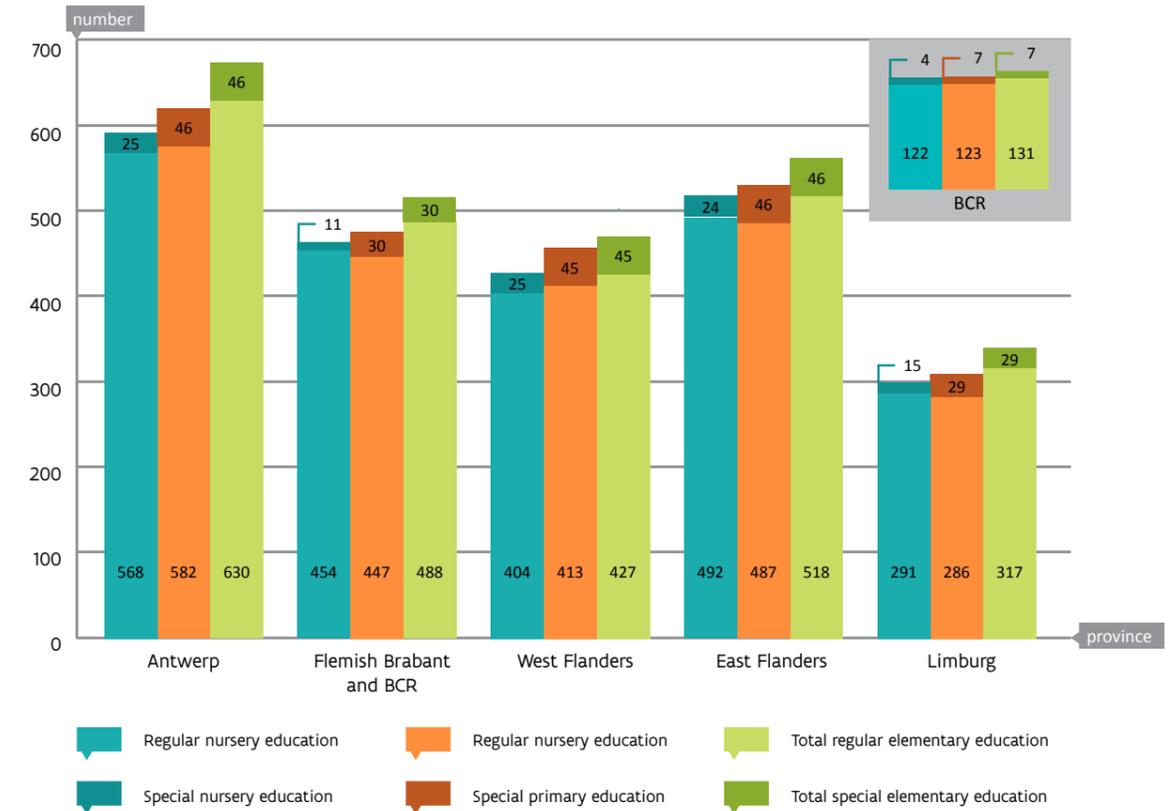

In elementary education a school can organise nursery education, primary education or both nursery and primary education. In the table above the following information is integrated:

- nursery schools: all schools organising nursery education
- primary schools: all schools organising primary education
- elementary schools: schools organising only nursery education, only primary education or both nursery and primary education.

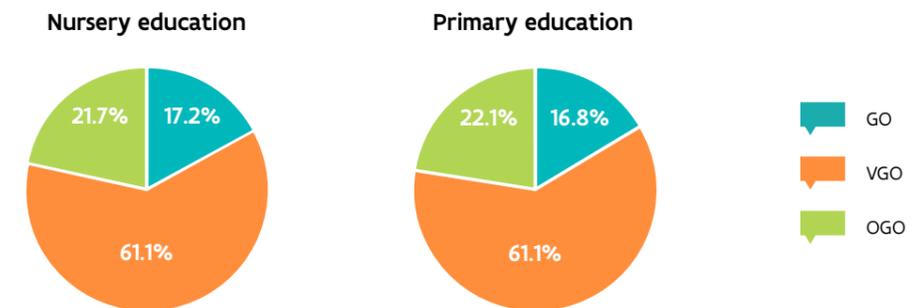

As a consequence, the sum of the number of nursery schools and the number of primary schools is higher than the number of elementary schools.

Besides these schools there were 6 schools organising type 5 special education (for pupils with long-term illness). These provide special nursery education as well as special primary education. They are not included in the data. French language schools are not included in the data.

2 Distribution across the provinces ⁽¹⁾

3 Distribution across the educational networks (nursery and primary education)

6 Changes in the school population in secondary education

Part-time vocational secondary education

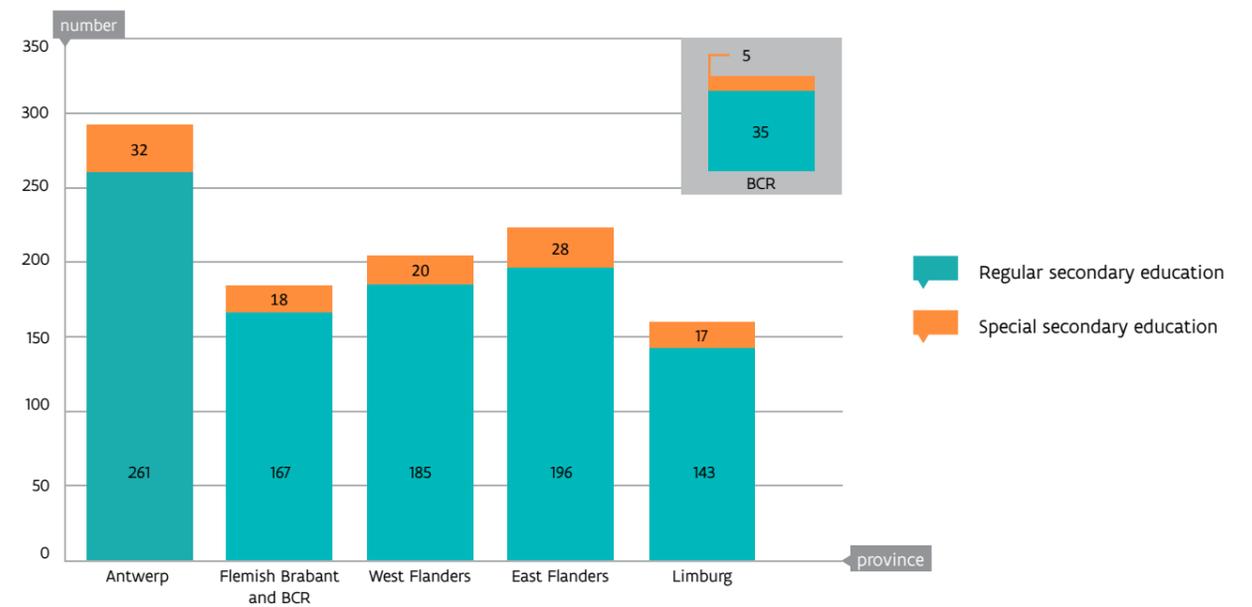

(1) The nursing courses at the 4th stage of vocational education became associate degree (HBO5) programmes in 2009-2010. These courses are allocated to the level of higher education. Associate degree courses can be organised by centres for adult education or by university colleges. The programme for the associate degree in nursing is the only exception: it is organised by institutions that organise full-time secondary education. These pupils are not taken into account.

Advanced Bachelor's programme	University colleges	176	1,233	1,409
Total		10,446	24,683	35,129

(1) Integrated teacher training programmes are professionally oriented Bachelor's programmes leading to a Bachelor's degree in education (nursery education, primary education or secondary education (group 1)). The university colleges award the teacher's diploma.

(2) Specific teacher training is a programme of 60 credits that the student can follow after professional training. The training focuses only on pedagogical skills. Half of the 60 credits (30 credits) must be devoted to practice. Specific teacher training replaces academic initial teacher training, academic level initial teacher training and the certificate of teaching proficiency. Specific teacher training is offered by universities, university colleges and centres for adult education. The diploma is a teaching degree and has the same value in the three institutions that organise this training.

A Associate degree

B University colleges

As a result of the transfer (in 2013-2014) of the academically oriented higher education programmes from university colleges to universities, personnel involved in the transferred fields of study is no longer included in the staff statistics of the university colleges from 1 January 2014 onwards. They are now paid by the Katholieke Universiteit Leuven and by Universiteit Gent themselves.

1 Staff in university colleges paid out of the operational block-grant

	Men	Women	Total

Total	1,641,566	1,652,037	1,669,649	1,644,017	1,683,089	1,750,419

3 Changes in tertiary education budget (in thousands of euros)

Attention:

The data on the budget for tertiary education as reported above refer only to the university colleges and universities. The budgets for higher vocational adult education and specific teacher training are integrated in the budget for adult education; the budget for the associate degree nursing is reported in the budget for secondary education.

In 2013, the board of directors of the university colleges⁽¹⁾ provided the following authorisations⁽²⁾ in total to the colleges:

	In euros
Investment resources	
Subsidised private university colleges	14,335,000
Subsidised public university colleges	1,541,000
Autonomous university colleges	8,860,000

(1) The board of directors is composed of all general directors of the university colleges. There are three sub-boards (for subsidised private colleges, subsidised public colleges and Flemish autonomous university colleges).

(2) Authorisations are budgetary engagements allocated to AGION in the Flemish budget, on the basis of which AGION can enter into engagements for infrastructure work.

The board of directors set aside 881,000 euros (resources) for the owners' maintenance of the autonomous university colleges.

The Agency for Infrastructure in Education (AGION) is responsible for financing infrastructure work for the university colleges but not for the universities.

1 Study allowances for the associate degree in nursing and tertiary education ⁽¹⁾

	Number of applications	Number of allowances granted	Percentage of allowances granted	Total amount of allowances granted (in euros)	Average allowance (in euros)
Associate degree nursing	2,942	1,476	50.17%	1,843,948	1,249.29
Tertiary education	67,660	40,036	59.17%	68,553,998	1,712.31
of which					
- University colleges	40,449	24,540	60.67%	40,509,375	1,650.75
- Universities	24,776	14,987	60.49%	27,118,692	1,809.48
- Unknown ⁽²⁾	2,435	509	20.90%	925,931	1,819.12

(1) As known on 20/08/2014.

(2) The type of tertiary education is not known (students studying abroad or in another Community of Belgium).

Note:

The above data are not yet final, as a number of applications are still under consideration for the school year 2013-2014. Due to this the number of allowances granted may increase further.

1 Number of course participants in secondary adult education and adult basic education ⁽¹⁾

	GO			VGO			OGO			Total		
	M	F	T	M	F	T	M	F	T	M	F	T
Secondary adult education	45,261	63,431	108,692	51,041	85,116	136,157	35,700	47,018	82,718	132,002	195,565	327,567
Adult basic education	-	-	-	-	-	-	-	-	-	19,944	27,917	47,861

(1) In secondary adult education and adult basic education, the number of unique enrolments on the same course during the reference period (1/4/2013-31/3/2014) is reported. Students who enrol twice or more on the same course are only counted once. A course participant enrolled in two (or more) educational networks is counted twice (or more) in this table. This explains the difference in total numbers in comparison to the other tables.

2 Distribution of the number of course participants in secondary adult education over the educational networks
